

# AMCAN DECO-ORB

*Let your creative flair run wild*

**Amcan Deco-Orb** has an aesthetic fine corrugated profile primarily used for decorative finishes on walls, ceilings, awnings, fencings and soffit linings.

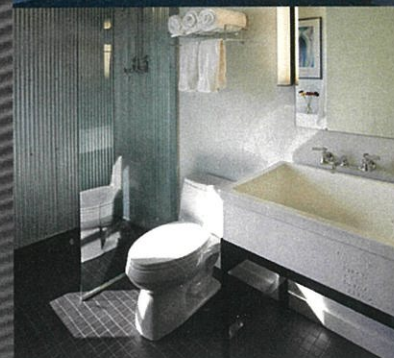

The flexibility of its features can be used with corrugation running either vertically or horizontally and mounted on either straight or spring-curved.

*Dedicated to quality excellence*

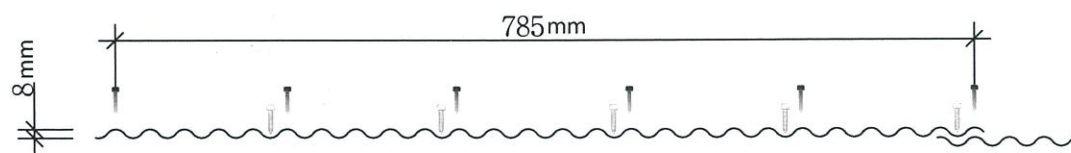

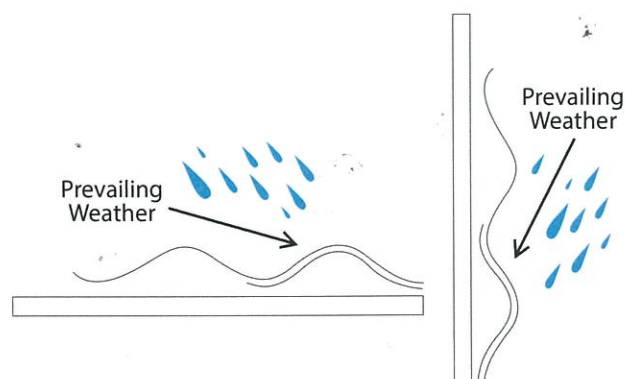

# AMCAN DECO-ORB Endless Application

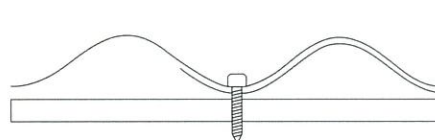

To give complete weather protection for outdoor application is to fix progressively along the building in the opposite direction to the prevailing weather.

Total Coated Thickness (mm)	Max Recommended Spacing of Support		
	Single Span (mm)	End Span (mm)	Internal Span (mm)
0.48	700	900	1200

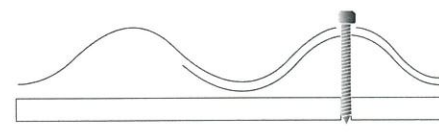

\* Other thickness also available upon request

Deco-ORB is fastened on either every 5th valley or every 6th chest
